

PPS Healthcare Services Corp. (PPS HEALTH) through its *PPS Citizens Public Health Corp* initiative is hiring Healthcare Navigators, as part of the **PPS CLINIX** and **PPS HEALTH** network for preventive healthcare medicine and clinical chronic disease management, to assist patients to navigate our preventive care platform and clinical programs, and to understand the complex array of healthcare services they receive to effectively obtain their greatest benefit from the healthcare system. Healthcare Navigators will be trained on the **PPS HEALTH Digital Suite** to help patients to understand and utilize this digital platform. They will also assist patients to successfully engage their prescribed programs of preventive care medicine and chronic disease management services, including digital prescriptions in the online pharmacy, remote patient monitoring and tele-health services.

PPS HEALTH is looking for personable, caring, outgoing, and tech savvy individuals who love especially working with the elderly, to help us to implement preventive care medicine and chronic disease management services within grassroots community throughout the five boroughs, and to transform the way healthcare is currently delivered in underserved communities. Healthcare Navigators will also be tasked to help patients connect with the programs of comprehensive social services delivery in their neighborhoods on behalf of clinicians. The Healthcare Navigators objective focus is the work of making preventive care medicine and chronic disease management, utilizing state of the art technologies, the new standard of care in grassroots community. Help us to get healthcare out of the hospital to become a fundamental element in the life of thriving communities through preventive care medicine and chronic disease management clinical services.

All adults of legal age are urged to apply. Multi-lingual, multicultural individuals are highly sought after and urged to apply. A four (4) year college degree is valuable but not a must. Work experience, digital fluency and successfully working with people is of the greatest value. All selected candidates will receive four (4) weeks of paid intensive training [two (2) weeks in class, and two (2) weeks in the field]. However, it should be noted that every day of your employment will be continuing education and on the job training as the industry is continually changing. The hourly rate of salary is \$25 per hour to begin, working a regular 40 hour work week.

Apply today to become a **PPS Healthcare Navigator!** Please send your resume' and cover letter, with all pertinent contact information and relevant work experience, addressed to Mr. Scott Rein, SVP & Chief Operating Officer for **PPS HEALTH** to REVELATIONAAI@gmail.com
